PROFILE

My name is Elián Matos Díaz, and I am a Software Engineer from INTEC. I am a quick learner, deeply dedicated to my passions, and adept at collaborating within a team. With a strong commitment to excellence, I continually seek opportunities to expand my skills.

WORK EXPERIENCE

Nov. 2024 - Feb. 2025 Santo Domingo, República Dominicana	Intern - Demand Management Department - DGA Marianela Merejo - m.medrano@aduanas.gob.do I conducted information gathering and prepared requirements documents, ensuring accuracy and clarity in communicating project needs. I also gained valuable knowledge of customs processes in general, which has allowed me to better understand the regulations and procedures required for the import and export of goods.
Aug. 2024 - Oct. 2024 Santo Domingo, República Dominicana	Virtual Reality Tour Developer - INTEC Jeanette Chaljub - jeanette.chaljub@intec.edu.do I began my journey in the world of virtual reality as part of INTEC's Extended Reality Lab. During this experience, I acquired skills in tools such as XML, KRPano, Photoshop, Blender, and RICOH 360° cameras, integrating creativity and technology to develop innovative projects. This role required effort, dedication, discipline, and teamwork, strengthening my ability to collaborate and solve technical challenges alongside a multidisciplinary team.
Nov. 2023 - Oct. 2024 Santo Domingo, República Dominicana	Vice President - Student Committee for Software, Systems and Cybersecurity Engineering Osvaldo Mota - (809) 750-9650 I organized technology events at INTEC, working closely with committee members. I also developed soft skills, such as public speaking and leadership, in professional settings.
Sep. 2021 - Oct. 2021 Santo Domingo, República Dominicana	Intern Full-Stack Developer - F2TC Yohairo Vargas - (829) 983-0333 In this position, I gained comprehensive experience in both front-end and back-end technologies. On the front end, I worked with Bootstrap and CSS to design responsive user interfaces and utilized the MVC design pattern. On the back end, I developed a Node.js application with Express, implemented NoSQL databases with MongoDB and Mongoose, and managed web routing to ensure communication between the client and server.

SKILLS

React	Next.js	JavaScript	Node.js	MongoDB
SQL	Git y GitHub	Github Actions	Firebase	Vue.js
Express.js	Scrum	Django	Docker	.NET

EDUCATION

Nov. 2021 - Apr. 2025 Santo Domingo, República Dominicana	Degree in Software Engineering - GPA 4/4 Instituto Tecnológico de Santo Domingo
